🎓 Education

PhD Student: **FudanNLP**, Fudan University Major: Computer Science 2024 – Now
Supervised by **Xuanjing Huang**.
B.S. Degree: Beijing Institute of Technology (985) Major: Computer Science (Elite Class) 2020 – 2024
Rank: Top 5% English: CET-6 580

📁 Research & Publications

Computer Use Agents (GUI Agents)

- ArXiv (NeurIPS 2026 under review) **ToolCUA: Towards Optimal GUI-Tool Path Orchestration for Computer Use Agents** **First Author**
 - Tool scaling and GUI-tool interleaving data pipeline for computer-use agents.
 - Build agentic RL workflows in a GUI-MCP sandbox for CUAs with separate training and rollouts backends.
- Tech Report **Mobile-Agent-v3.5: Multi-platform Fundamental GUI Agents** **Core Contributor**
 - Responsible for GUI + tool capabilities for next-generation CUAs/Claws; open-sourced state-of-the-art results on OSWorld-MCP and MobileWorld.
 - Worked on scaling agentic RL with verifiable tasks, rollout sandboxes, and GUI critic pipelines.

Safety Alignment and Post-training in LLMs/VLMs

- ACL 2024 **SALAD-Bench and MD-Judge** **Co-First Author**
 - Developed early LLM-based safety judge models: **MD-Judge-v1** and **MD-Judge-v2**; data and models reached **100K+** Hugging Face downloads.
 - Cited by Meta-Llama and Tongyi-Qwen, with 300+ citations.
- ACL 2025 **Unveiling Visual Leakage in Multimodal Safety** **First Author**
 - Released a **dataset** with **20K+** Hugging Face downloads.
 - build an efficient and scalable multimodal safety data pipeline for evaluation and alignment.
- AAAI 2026 **IS-Bench: Evaluating Interactive Safety of VLM-Driven Embodied Agents in Daily Household Tasks** **Co-First Author**
 - Designed embodied simulations for evaluating VLM-driven agents in daily household environments.
- ACL 2026 **LLMs Deceive Unintentionally: Emergent Misalignment in Dishonesty from Misaligned Samples to Biased Human-AI Interactions** **First Author**
 - we systematically studied the emergent misalignment of dishonesty under high-stakes scenarios. Highlight our results through direct SFT, combined downstream SFT, preference learning (KTO) in multi-turns.
- Tech Report **SafeWork-R1: Coevolving Safety and Intelligence under the AI-45 Law** **Contributor**
 - Trained multimodal reward models for safety and helpfulness, used in the multi-target RL.

Diffusion LLMs

- Arxiv **DARE: dLLM Alignment and Reinforcement Executor** **Co-First Author**
 - build an efficient RL training framework for diffusion large language models with dLLM-tailored RL algorithms.

🔧 Internship Experience

Mobile-Agent / XPLUG Team, Tongyi Lab, Alibaba mentored by **Xi Zhang** and **Haiyang Xu** 2025.11 – Now
• GUI-Tool capability, GUI world modeling, agentic RL scaling, Qwen3.6/3.7 in mobile.
AI45 / OpenTrust Team, Shanghai AiLab lead by **Jing Shao** 2023.10 – 2025.10

🏆 Honors and Awards

- Panasonic Scholarship Fudan University
- National College Students Mathematical Modeling Contest, Second Prize China Industrial and Applied Mathematics
- Outstanding Undergraduate Graduation Design / Outstanding Undergrad Student Beijing Institute of Technology

⚙️ Skills & Services

- Reviewer Service: NeurIPS 2026, EMNLP 2025
- Programming and Frameworks: Python/C++, Codex/Claudecode, PyTorch, vLLM, veRL, Docker,
- Highly self-motivated, strong interest-driven, ability of independent learning, thinking, and problem-solving
